

REAL-TIME ACTIONABLE INSIGHTS ON MOBILITY

Elemz™ Core gives visibility and insights across your mobile devices to proactively manage mobility.

End the Madness

Stop the madness of trying to stay on top of trouble tickets, end-user phone calls and the endless streams of outages on mobile devices and apps by adopting new ways to manage mobility in real-time and proactively prevent and limit problems.

Save Money

The present Total Cost of Ownership is out of control, with each mobile failure costing as much as 80+% of every \$, £, €, ¥ or other currencies you spend on mobility. Elemz gives you the True Cost of Mobility™ and the actionable insights to control them.

Improve Performance

Enterprise Mobility is Mission-Critical to business today, and that requires 7x24x365 uptime for workers who depend on mobility to do their job. Elemz gives the Proactive, Preventive and Predictive tools needed to keep mobility running.

What is Elemz?

- ✓ Platform as a Service providing real-time operational intelligence on mobile devices, applications and users.
- ✓ Proactively alerts you to problems, so you can isolate and resolve before they become crises.
- ✓ Provides real-time insights via the cloud-based dashboard.

Who is it Suitable for?

- ✓ Works on Android 5.1 and above and Windows PC 8.1 and above.
- ✓ Highly scalable making it suitable for companies with 50-500,000+ devices.
- ✓ Works in all environments - in store, in the field, on the road, in the warehouse.

DRIVING ENTERPRISE MOBILITY PERFORMANCE

Elemez™ Core is simple to deploy, easy to use and very cost-effective. You can be operational in 24 hours in just three easy steps.

1. Set Up and Deploy

We set up your Elemez account on a one to five year contract. You deploy the Elemez client to your device estate using your MDM or via the Internet, and then use your Elemez dashboard from any web browser.

2. Be Insightful

Monitor device health, utilization of mobile assets, critical alerts and other real-time actionable insights to change how you manage mobile devices, users and apps.

3. Be Proactive

With Elemez, you can finally flip the model around for how you manage problems. Instead of being deluged with end-user trouble tickets, you can proactively troubleshoot and limit or prevent problems.

Be Proactive, not Reactive

- ✓ Spot issues before your end users do.
- ✓ Limit the impact of any issues by quickly isolating, troubleshooting and resolving.
- ✓ Prevent issues from happening by predicting problems.
- ✓ Lower the True Cost of Ownership™ of Mobility.

How do I get it?
