THE ELEMEZ PRODUCT SUITE

All delivered via a highly-scalable and secure cloud-based Platform as a Service.

Smart Monitor

Modular Software Solutions to understand **What** is occuring across your mobile devices.

Smart Battery Monitor

- Proactive Real-time Battery Health monitoring on all devices that predicts battery failure.
- Easy to deploy with or without an MDM.
- Actionable alerts for smart batteries, and e-mail warnings for standard mobile batteries.
- Overall battery health dashboard.

Smart Device Monitor includes:

- Proactive Real-time Device Health monitoring on all devices to highlight issues affecting end-users.
- Proactive, Real-time views of device locations and status to quickly spot devices which may be lost or stolen.

Elemez

Software Tool to understand both **What & Why** devices are not healthy or under / over-utilized across your mobile ecosystem. Provides greater depth and level of detail on all mobile devices and users than Essentials offerings.

- Comprehensive and holistic real-time monitoring, diagnostic and trend analysis for mobile devices, applications, batteries, cellular, wi-fi, sim cards, disruptions, operating systems, patches, hotfixes and much more.
- Web dashboard / console top-level visibility across all mobile devices with drill-down to individual groups and even specific devices or apps.
- Actionable alert notifications.
- Enables trend analysis powered by the latest in machine learning and big data analytics.

APIs

Includes all the Core features plus:

- Using Elemez' APIs, customize your mobile operations by combining the real-time intelligence of Elemez with your other data and systems.
- Enhance your operations and service web portals, tablet and smartphone apps with Elemez Analytics insights and alerts.
- Integrate Elemez' real-time analytics with 3rd party data to provide a rich overview of your mobility devices, apps and users.
- Drag, drop, analyze and visualize using your favorite REST-friendly business intelligence tools like Microsoft Power BI, Tableau or Qlik.
- Drag, drop and automate the easy stuff using a REST-friendly workflow tool like Microsoft Flow.
- Easy integration of our real-time analytics data with Microsoft Excel™ using Power Query tools.

Monitor

Simple, Modular Approach: Because we know your teams are already stretched thin to support and deliver enterprise mobility performance today, we've made it simple to tackle some of your biggest problems by purchasing individual modules that meet your need and allow you to easily get started.

Essentials modules all inter-operate and exchange data, and allow you a simple way to begin changing your management of mobility from Reactive to Proactive, Preventive and Predictive.

- ✔ Works on Android 5.1 and above and Windows PC 8.1 and above.
- ✔ Highly scalable making it suitable for companies with 50-500,000 devices.
- ✔ Works in all environments - in store, in the field, on the road, in the warehouse.

Elemez

Real Time Actionable Insights on Mobility: Elemez Core enables you to see highly detailed data for all aspects of your Mobile Ecosystem.

Elemez Core uses a purpose-built platform to collect, analyze and extract insights from the billions of online and offline mobile events that occur in your mobile estate every month.

The web dashboard provides a flight-deck style overview with the ability to drill down into the information collected and identify emerging trends helping you to act on potential issues before they disrupt your business services.

Get full visibility of your mobile ecosystem and work smarter not harder:

- ✔ Get notified about live problems with actionable Alerts.
- ✔ See live problems unfold and stop them fast.
- ✔ Spot trends early and take action to avoid problems.
- ✔ Isolate issues quickly to minimize downtime.

API

Customized Operational Intelligence: To unleash the full potential of Mobile & Wireless Analytics you need to plug into the rest of your organization using the latest in Web API technology.

Elemez Synergy offers all of the features and benefits of Elemez Affinity and offers a comprehensive suite of Web APIs adding the ability to put the data into the heart of your operations. With Elemez Synergy you can find even more opportunities to minimize disruptions and optimize device performance and you can view the data the way you want to see it.

- ✔ Custom integrations of real-time data with other data sources in your company to provide rich, real-time views on the health and performance of mobility.
- ✔ Eliminates time-consuming manual reporting by integrating all critical data into a single tool.
- ✔ Professional Services team on hand to help you get up and running with our APIs.
- ✔ New enhancements released quarterly.
