

CUSTOMIZED OPERATIONAL INTELLIGENCE

Elemez™ Synergy's APIs makes real-time actionable analytics on mobility available for use however you wish.

Define Data Needs

We understand the need to marry our in-depth real-time views of mobility with other data sources to give your team the complete picture on end-users and business needs. That's why we created Synergy to combine our data with your other data sources to meet your needs.

Easily Integrate

Our rich set of APIs allows for easy integration into existing business intelligence tools, dashboards, spreadsheets and custom applications. The data can then be enhanced and sliced however you wish to create the views you need.

Act Confidently

To make the best decisions possible, your operations team needs a single view containing all data sources relevant to the decision. Elemesz supplies the mobile operational intelligence needed for swift, confident decisions on mobility, and business as a whole.
